

Bristol North Open Meet 2019

Negative improvements – also coloured green – mark a new PB, using the Active database. If the improvement column has a double dash this means that this is the first time the event has been swum. Some swimmers seem to have lost their old Active records and being recorded as not having swum events I know that they have done. This appears to be caused by the new registrations for the 2019/20 season not linking with old records. There are a lot of PBs, or near-PBs. This meet is at the start of the season, with swimmers having recently resumed training after the summer break.
